Effective for students entering UPG 2191 and beyond

Students interested in Actuarial Science may choose to pursue a minor either to supplement the work in their majors or to fulfill the requirements for a related area within their majors. The minor in Actuarial Science requires that students complete 9 courses for a total of 30 credits.

However, a number of the requirements will overlap with those for other majors reducing the number of new credits for the minor.

See the table below for details on how courses will be allocated to general education, major and minor for math, management and other majors.
