Requirement Satisfied (13.5 credits)				

Nsg - Nursing Sem - Semester Taken CE - Credits Earned CA - Credits Attempted GR - Grade

*The nursing curriculum assumes that students are prepared to enter College Composition 2 and have demonstrated math proficiency at the level of College Algebra. Students will be expected to make up deficiencies prior to their first semester in the nursing program. See an Admissions Counselor or Academic Advisor for details.

**Successful completion of the Baccalaureate Comprehensive Exam is required for all students in their senior year.

A series of Kaplan Preparation Practice Tests are integrated throughout the nursing program. A Diagnostic Prep, a Predictor exam, and a three-day Kaplan Review are scheduled at the end of the program to provide students with prep resources to take the National Nursing License.
