

Statistics Course Rotation

Updated as of fall 2025

The **statistics course rotation** is as follows:

Every Semester including Summer (Introductory statistics courses):

Basic Applied Statistics (STAT 0200)

Applied Statistical Methods (STAT 1000)

Probability and Statistics for Management (STAT 1100)

Once per year (usually spring):

Applied Regression (STAT 1221)

Every other fall semester:

Introduction to Probability (STAT 1151)

Statistical Quality Control (STAT 1251)

Every Other Spring Semester:

Introduction to Mathematical Statistics (STAT 1152)

Individualized courses in statistics that can be taken in any semester:

Statistics Internship (STAT 1900)

Statistics Teaching Assistant (STAT 1955)
