

## SUMMER DUAL ENROLLMENT

The following courses are offered summer of 2025 with six-week sessions. The first session begins May 7 and ends June 24.

**APPLY ONLINE by May 7, 2025**

**<https://www.greensburg.pitt.edu/admissions/apply>**

### **SOC0010 Introduction to Sociology**

This course introduces the student to the discipline of sociology, its development, theories, major findings, and to the sociological interpretation of modern society. Emphasis will be given to the importance of careful empirical investigation for the understanding of recent social and cultural changes. Students should be prepared to encounter basic issues in sociological method and in theory; an inclination toward systematic and abstract reasoning will help.

### **CS0098 Decision Making with Excel**

This course starts with an introduction to the use of spreadsheets and then builds on that foundation to develop proficiency in the use of spreadsheets for statistical and other analytic techniques in support of decision making.

### **ENGLIT 0312 American Outdoor Literature**

This course investigates the American literary and philosophical movement known as Transcendentalism. This course covers not only the writings of prominent Transcendentalist movement figures but also contemporary authors who were skeptical, and critical, of their teachings. Beyond physical texts, online databases will be consulted in order to achieve a comprehensive view of the movement.

### **BIOSC 0105 Topics in Biology**

Topics in Biology is designed for non-science majors that will introduce them to biological principles and applications through the exploration of current topics. Topics will be specifically developed to build upon basic biological concepts. Examples of possible topics include human nutrition, disease, genetic engineering, and climate change. The process of the scientific method will be emphasized during the study of these topics as well as how these topics are related to current issues and problems facing modern society. The course may not be used to satisfy biology major or minor requirements.

### **PSY 0010 Introduction to Psychology**

Summary of our present knowledge in fundamental areas of learning, sensation and perception, biological basis of behavior, developmental patterns, motivation, emotion, personality and adjustment, and measurement of behavior. Information and concepts are applied to problems in understanding human behavior. Additional out-of-class experiments or an equivalent research paper are a part of the course.

### **COMMRC 0520 PUBLIC SPEAKING**

This course is designed to help students develop increased skill in public speaking by means of theory and practice. This course covers research, organization, style, delivery, and criticism of informative, deliberative, and ceremonial speeches.

**Cost: \$75 Per Credit Hour Courses Offered Asynchronously**  
**These are six-week sessions, so the pace moves quickly.**
