Pitt-Greensburg Cable FAQs

What equipment do I need to watch cable TV on campus?

- ✓ Digital TV w/ QAM digital tuner
- ✓ Coaxial cable

Your TV set must have a QAM digital tuner in order to view the digital signal. TVs that have a “flat screen” or are “HD ready” may not have a QAM tuner, so please check the manual.

If you are considering purchasing a new TV, we recommend that you **NOT** purchase the following models as they may experience problems working with the cable system:

- | | |
|---|--|
| <ul style="list-style-type: none">○ Dynex DX-32L151A11○ Element (all models)○ Emerson EWL20S5B○ Emerson LC320EM2F○ Emerson LC401EM2F○ Insignia (check with manufacturer)○ LG (models made prior to 2007)○ Magnavox P2MF23ID/37○ RCA LED24G45RQ○ Samsung (models made prior to 2009)○ Sanyo (check with manufacturer)○ SE47FY19 | <ul style="list-style-type: none">○ Seiki SE24FT01○ Sharp 32” Aquos○ Sony (models made prior to 2007)○ Sylvania (all models)○ Toshiba (models made prior to 2007)○ Westinghouse DWM32H1G1○ Westinghouse DWM32H1Y1○ Westinghouse DWM42F2G1○ Westinghouse DWM48F1A1○ Westinghouse EWM24F1Y1○ Westinghouse LTV-27W2 |
|---|--|

If you have one of these models and are experiencing problems, you can resolve the issue by purchasing a converter box (please see the next section to learn more about converter boxes).

How do I program channels into my TV?

The steps for programming TV sets vary with each manufacturer and model. Please refer to your TV’s manual for more specific instructions. In general, the procedure is as follows:

- Step 1: Press the “Menu” Button
- Step 2: Select “Set-Up”

Step 3: Select “Antenna” then “Cable”

Step 4: Select “Auto Program/Auto Tune” then “OK”

The scan may take a between 20 - 45 minutes to complete. If you are having trouble programming your television, please contact the Housing Office at upglivin@pitt.edu.

I don't see a channel I want. Can I order it?

Students cannot order a specific channel for their room only. However, residents are able to request changes to the lineup for the entire campus. Resident Student Council (RSC) makes recommendations for changes to the channel lineup each term. If you have a request that you would like to make, please contact an RSC representative. Not all channels are available through our cable service provider.

How do I report problems with my cable service?

Problems with the cable service should be reported by submitting an online [Facilities Request](#). A member of the staff will help you resolve the issue if possible or report it to the appropriate person for action.
